TECH TASKS	Red = High Priority	Orange = Medium Priority	Yellow = Low Priority	Green = Complete
Build	iOS	Android	PC	Web
Map Screen	Allow for Easy Normal and Hard pictures to represent each level instead of photos on level select			
Info Page	Fix alignment of info menu last column of cards(It has more empty space than the other columns).	Allow the player to click anywhere on the screen(except for the back button) to see the antelope rear up and hear David.	Fix back button from playing sound instead of going to previous menu.	Set antelopes to switch (for when the player clicks to right or left page)after card is half done rotating. Fix antelope mislabled (may be related to duplicating).
Info Page	Disable antelope name getting spoken again when going to new antelope.	Prevent antelope sliding unexpectedly in and out of screen after clicking too fast.	Add gender icon to each antelope card on the main info menu(the gender icon on the info page is fine).	Fix order of antelopes appearing to be alphabetical. Fix all cards disappear after clicking to left and right fast. Also sometimes they hang in half rotation.
Integration	Implement all game sounds. **75%**	Set up an "antelope" sound for missing antelope names.	Replace health counter UI with images provided.
